Enable the Hidden Modes

To enable Making, Sparring and DC modes, finish the game once on any difficulty level.

Easy Moves Mode

Press the **(OPTION)** button during the Mode Select screen, you'll get an easy moves mode, allowing you to perform special attacks with only $\downarrow \nearrow \rightarrow / \downarrow \nwarrow \leftarrow$ movements.

Play as the Secret Characters

While playing a Single or Team game, single characters might challenge you after the 1st or 2nd match (they can be either a secret or a standard character). Then after the 4th match another character might challenge you. If you finish the game, the secret character you will have encountered will be added to you characters list.
