Copyright (C) Utach Computacion SA.

Lanús, Buenos Aires, Argentina

License agreement based on GNU GENERAL PUBLIC LICENSE Version 2. This license was created from scratch, was not copied and modified directly from the GNU GENERAL PUBLIC LICENSE Version 2 because the same license prevents it.

TERMS AND CONDITIONS OF COPY, DISTRIBUTION AND MODIFICATION

Activities other than copying, distribution and modification are not covered by this License; They are out of reach. The act of executing the Program is not restricted, and the outcome of the Program is covered only if its content constitutes a work based on the Program (regardless of whether the Program has been implemented). If that is true depends on what the Program does.

1. You may copy and distribute verbatim copies of the Program's source code as and when you receive it, in any medium, as long as you publish in a visible and appropriate manner on each copy a copyright notice and a warranty disclaimer ; Keep intact all notices that refer to this License and the absence of any guarantee; And give any other recipients of the Program a copy of this License together with the Program.

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Program or any part thereof, thus forming a work based on the Program, and copy and distribute such modifications or works under the terms of Section 1 above, provided that you also Comply with all the following conditions:

A) You must have the modified files carry prominent notices stating that you changed the files and the date of any changes.

B) You must make any work you distribute or publish, which in whole or in part contains or is derived from the Program or any part of it, is licensed in its entirety at no cost to third parties under the terms of this License.

C) If the modified program reads the commands interactively when it is executed, it must cause, when the execution for such interactive use is initiated in the most ordinary way, to print or display an advertisement including an adequate copyright notice and a notice of That there is no guarantee (or saying that you provide a guarantee) and that users can redistribute the program under these conditions, and tell the user how to see a copy of this license. (Exception: If the Program itself is interactive but does not usually print such an advertisement, its work based on the Program is not required to print an advertisement.)

These requirements apply to the modified work as a whole. If the identifiable sections of that work are not derived from the Program and can be considered reasonably independent and separate in themselves, then this License and its terms shall not apply to those sections when it distributes them as separate works. But in distributing the same sections as part of a whole which is a work based on the Program, the distribution of the whole must be in the terms of this License, whose permissions for other licensees extend to the whole set, and therefore to each one And each part regardless of who wrote it.

Therefore, it is not the intent of this section to claim rights or contest your work rights written entirely by you; Rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Program.

In addition, the mere aggregation of another work not based on the Program with the Program (or a work based on the Program) on one volume of a storage or distribution medium does not subject the other work to the scope of this License.

3. You may copy and distribute the Program (or a work based on it, under Section 2) in object code or in executable form under the terms of Sections 1 and 2, provided that you also perform one of the following actions:

A) Accompany it with the complete source code and machine readable, that must be distributed under the terms of Sections 1 and 2 above in a medium usually used for the exchange of software; or,

B) Accompany it with a written offer, valid for at least three years, to give any third party, for a charge not exceeding its cost of physical realization of the source distribution, a complete machine-readable copy of the corresponding source code, to be Distributed under the terms of Sections 1 and 2 above in a medium commonly used for software exchange; or,

C) Accompany him with the information he received on the distribution offer of the corresponding source code. (This alternative is only allowed for non-commercial distribution and only if you received the program in object code or in executable form with said offer, in accordance with subsection b).

The source code of a work means the preferred form of the work to make modifications in it. For an executable job, the complete source code means all the source code of all the modules it contains, in addition to any associated interface definition files, in addition to the scripts used to control the compilation and installation of the executable. However, as a special exception, distributed source code does not need to include anything that is normally distributed (in source or binary form) with the main components (compiler, kernel, etc.) of the operating system on which the executable is run, Unless the component itself accompanies the executable.

If the distribution of executable code or object is done by offering access to copies from a designated place, then offering equivalent access to copy the source code from the same place, is counted as distribution of the source code, although third parties are not obliged to copy the Along with the object code.

4. You may not copy, modify, sublicense, or distribute the Program except as expressly provided under this License. Any attempt to copy, modify, sublicense or distribute the Program is void and will automatically terminate your rights under this License. However, parties who have received copies or rights from you under this License will not have their licenses terminated as long as those parts remain in full compliance.

5. You are not obligated to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Program or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Program (or any work based on the Program), you indicate your acceptance of this License to do so, and all its terms and conditions to copy, distribute or modify the Program or works based on it.

6. Each time you redistribute the Program (or any work based on the Program), the recipient will automatically receive a license from the original licensor to copy, distribute or modify the Program subject to these terms and conditions. It may not impose any further restrictions on the exercise of the rights granted by the recipients. You are not responsible for enforcing third party compliance with this License.

7. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), you are imposed conditions (conditional or otherwise) that contradict the conditions of this License, not Excuse you from the conditions of this License. If you are unable to distribute to satisfy your obligations under this License and any other applicable obligations, then you may not distribute the Program at all. For example, if a patent license does not allow royalty-free redistribution of the Program by all those who receive copies directly or indirectly through you, then the only way to satisfy both this and this License would be to abstain completely from the distribution of the Program.

If any part of this section is held to be invalid or unenforceable under any particular

circumstance, the balance of the section is intended to be applied and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe patents or other claims of property rights or to question the validity of such claims; This section is for the sole purpose of protecting the integrity of the free software distribution system, which is implemented by public licensing practices. Many people have made generous contributions to the wide range of software distributed through that system based on consistent application of that system; It is up to the author/donor to decide whether they are willing to distribute software through any other system and a licensee can not impose that option.

This section is intended to fully clarify what is believed to be a consequence of the rest of this License.

8. If the distribution and/or use of the Program is restricted in certain countries by patents or by interfaces with copyrights, the original copyright holder placing the Program under this License may add an explicit limitation of geographical distribution excluding those countries, It is only allowed in or between countries not so excluded. In such a case, this License incorporates the limitation as if it were written in the body of this License.

9. Utach Computación reserves the right to change the license agreement for new versions of this software. However, those who have obtained the copy of the source code under this license may continue to make use of it.

10. If you wish to incorporate parts of the Program into other free programs whose distribution conditions are different, please write to the author for permission. For software that is copyrighted by the Utach Computación, write to the Utach Computación; Sometimes we make exceptions for this. Our decision will be guided by the two objectives of preserving the free status of all derivatives of our free software and promoting the sharing and reuse of software in general.

NO WARRANTY

11. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. Except as otherwise indicated in writing, the copyright holders and/or other parties provide the program "as is" without warranty of any kind, either express or implied, but not limited to, the implied warranties of MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. ALL THE RISK OF THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. IF THE PROGRAM IS PROBABLE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICE, REPAIR OR CORRECTION.

12. In no event shall any copyright holder or any other party who modifies and/or

redistribute the Program as PERMITTED ABOVE, be liable to you for any damages, including any general, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR LOSS OF DATA, INACCURATE OR SUFFERED BY YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAM) , EVEN IF YOUR HOLDER OR THE OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.
