

Copy the game to dev_hdd0\game (As seen below)

Open RPCS3, and install the PS3 firmware from the firmware file.

Go to Tools > Virtual File System > dev_usb

Make sure the Vendor ID, Product ID and Serial match.

\$(EmulatorDir)							dev_hdd0	dev_hdd1	dev_flash	dev_flash2	dev_flash3	dev_bdvd	dev_usb	games
	Device	Path	Vendor ID	Product ID	Serial									
1	/dev_usb000	\$...	0693	0026	76C0D0000001									

Start the game, it should start after a few minutes of loading.

NOTE: Player 2 in the game is mapped to Player 3 in RPCS3, if you want to do 2 player, you will need to setup Player 1 and Player 3 in the Pads settings.
